

# Misc. Tricks

## Create power report

```
powercfg /sleepstudy
```

results in:

```
C:\WINDOWS\system32\sleepstudy-report.html
```

## Scheduler, create event for wake-up

Create custom event

**Event Level:** Information  
**Log Name:** System  
**Source:** Power-Troubleshooter  
**Event ID:** 1

## Create symbolic link

In CMD - admin privileges

```
mklink /D <link target> <link source>
```

---
